As a result, we have the capital and liquidity to fulfill our financial obligations and pay claims over the short and long term — no matter what nature brings. We are proud to provide exceptional service through our financial stability, unmatched claims management, exceptional underwriting practices, and a storm-tested, veteran leadership team.

Centauri has worked diligently to achieve a diversified and rate adequate portfolio over ten states. That portfolio has grown steadily over the years reaching over \$200MM of inforce premium in June, 2021. While premium continues to grow, our exposure remains relatively steady.

SECURITY THROUGH REINSURANCE

- As tested recently by Hurricane Ida, Centauri purchases reinsurance well beyond industry-accepted minimums to ensure policyholders are protected when they need it most. Case in point, less than half of the available reinsurance limit was reached by Hurricane Ida.
- Our reinsurance strategically spreads exposure across highly-rated, highly-capitalized reinsurers around the globe that maintain a minimum of B++ (Good) by A.M. Best, AA- by Standard and Poor's or are otherwise fully collateralized.
- We maintain a highly conservative investment approach, with 82% of invested assets held in cash or highly-rated fixed income and equity securities to ensure we can meet the needs of our policyholders.

*International Reinsurers rated AA- by S&P or fully collateralized
